#### 六、Saving the Environment

Great changes have taken place in many places during the past few years. The changes have brought many benefits, and have also caused a lot of serious problems.

There is air pollution everywhere. Factories let out their waste gas without doing anything to it. The air is not clean any more. Some people pour the waste water into the

rivers and lakes directly and the water is dirty now. Noise pollution is also very serious. Some people have to move out of the noisy blocks. Besides, people cut down too many trees and leave rubbish here and there.

What shall we do to save the environment? My suggestion is that we must stop people from dumping the waste into the air and the water. And also we should plant more trees. Everyone should do something to protect the environment.

How are you? I haven't seen you for a year. I'd like to

tell you about my trip to Beijing.

I went to Beijing with my parents during this summer holiday. It took about one and a half hours by plane. There are many places of interest in Beijing. On the first day we visited the Great Wall. On the second day we went to Tian'anmen Square to watch the raising of the national flag. Then we visited the Palace Museum. On the third day we went shopping in Wangfujing Street. I bought some nice things for my friends. During our stay in Beijing we also tasted Beijing Duck and some other local food. They were delicious. I enjoyed my trip to Beijing very much.

How about your summer holiday? Write to me soon.

Yours,

Mary

#### 六、Dear all,

The environment in Zhongshan Park has become worse recently. We must do something to stop it.

First, we shouldn't drop litter everywhere and always keep the park clean. We should never pick flowers in the park. Second, it's rude to talk or laugh loudly in the park. Please keep our voice down. Third, if someone is in your way, please say "Excuse me" and wait till he moves. We should also explain to others the importance of protecting the park. It's good for our environment as well as our health by doing this.

Yours sincerely,  
Tom

The big day came very quickly, and suddenly it was the night before the charity show. I could not sleep at all that night because I was so excited. "Will it be a success?" I kept asking myself.

Twenty minutes before the big event, the doors opened and many people came into the theatre. "No time to be nervous any more. This is it!" I told myself. A lot of people came to watch the show. They were making a lot of noise, so I had to speak loudly.

Helping Each Other Makes the World Wonderful

Hello, everyone. I'm Li Zhi. It's nice to speak about help here. In our life we often help others and also get help from others. When we help our classmates with their study and other things, we can develop our friendship. If we give a hand to old people, we can understand the meaning of pleasure. We will know what's the happiest thing in our life when we are helping the patients. I think we can get much when we help the people around us. As the saying goes, "Giving is much better than receiving."

- 六、Hello, everyone.

I'm Li Hua. It's nice to speak about what we can do for the environment, and I think each of us can do a little bit to help with this problem.

The first thing we can do is to use cloth bags instead of plastic bags when we go shopping. It helps to protect the environment. The second thing we can do is to reuse the old textbooks as possible as we can. We should also never forget to turn off the lights when we leave the classrooms in order to save energy. What's more, it would be better if we walk or ride a bike to school. We should try our best to reduce pollution and waste.

In fact, even the simplest everyday activities can make a real difference to the environment. Believe we can make the world a better place to live in.
